

The Spanish Dining

The Spanish Dining Chair is a generous and exquisitely crafted chair in Børge Mogensen's well known series of saddle leather chairs. Over time, as the leather expands, the adjustable straps can be tightened. A true statement of craftsmanship. Solid oak or walnut is combined with the highest calibre saddle leather in a chair that will only become more beautiful with age.

Børge Mogensen (1914-1972) was one of the most influential designers shaping Modern Danish design and Fredericia's founding designer. He found inspiration worldwide in his quest to create everyday objects that would endure for generations, believing that furniture should create a sense of tranquillity and a modest appearance. He was acclaimed for his masterful sense of materials and proportions, creating designs celebrated and showcased in leading design museums worldwide.
